Welcome to EENA

About

EENA, the European Emergency Number Association, is a Brussels-based NGO set up in 1999 dedicated to promoting high-quality emergency services in the EU and beyond. EENA serves as a discussion platform for emergency services, public authorities, decision makers, researchers, associations and solution-providers with a view to improving the emergency response in accordance with citizens’ requirements. EENA is also promoting the establishment of an efficient system for alerting citizens about imminent or developing emergencies.

Today, the EENA community includes 1500+ emergency services representatives from over 80 countries worldwide, 100+ solution-providers, 100+ researchers and 200+ Members of the European Parliament. We are proud to be a platform for everyone involved in the public safety community and to provide a space for collaboration and learning.

Visit the EENA website for more info: www.eena.org

Our mission?

To improve people's safety and security!

Event overview

AN OPEN WINDOW TO EXPERTISE AND INNOVATIONS IN THE PUBLIC SAFETY SECTOR

Every year, the EENA Conference & Exhibition is the get-together of professionals from across the public safety field to share knowledge: from emergency services professionals and researchers, to solution-providers, mobile network operators and EU institution representatives.

In light of these unusual times, we are taking all the necessary precautions to deliver a safe EENA Conference this autumn, where you can come together to discuss the present and future of emergency response.

Across three diverse tracks, we will be hearing from leading experts in the plenary sessions, we will also discuss and debate operational and technical issues with specialists from across the world. The most innovative products on the emergency services market will be presented, while our exhibition area will allow you to meet and discuss with solution-providers... and even try first-hand some of the latest, cutting-edge technology!

Once more, EENA is pleased to partner with ISCRAM (Information Systems for Crisis Response and Management) for some insightful session about the present and future of research in the emergency services field.

Join us to meet and network with hundreds of your peers and stay at the forefront of public safety expertise and innovations!

Visit WWW.EENACONFERENCE.ORG website for all event details.

Who should attend

• emergency services and public authorities,
• supplier organisations,
• researchers,
• telecom regulators,
• officials from EU institutions

...and many others.
Participation fee

The annual EENA Conference & Exhibition is a free attendance event for public authorities’ representatives and EENA Members.

Otherwise, should you be:

- part of a company that is NOT a member of EENA;
- a partner company of a sponsor or exhibitor,

EENA will apply an admission fee and your request of participation must be sent to the EENA Events Office.

Event Venue

Le Palais des Congrès, Marseille Chanot

Located around 30 minutes from Marseille Provence international airport, this Exhibition & Convention centre is right at the hear of the city of Marseille and easy to access by public transport.

Participants can book their hotel accommodation and benefit from EENA’s discounted rates through the conference website.
What people say about us

GREGORY ROHDE  
E-COPERNICUS, PRESIDENT & THE NG9-1-1-INSTITUTE, FORMER EXECUTIVE DIRECTOR, USA

It is always such a pleasure for me to be here with the EENA community. Most of all congratulations on not only another successful conference but for being a true global leader in public safety. EENA and the team have found a winning formula and know how to put on a top notch event. The conference was well organised: very meaningful sessions, great collection of public safety officials and industry leaders, and a great balance of social time to network and time spent in the sessions. Numbers are not the whole story but it speaks volumes that people keep coming back and more and more want to be at EENA each year.

FREDERIC SEGURET  
FIRST AID PROMOTER & SECOURISME.NET, FRANCE

The conference has been very inspiring and the organisation was great, as usual. It was a real pleasure to join the event and I'm very pleased to be allowed to communicate about the EENA team work to my little community. I am so appreciative of the work done by EENA, the quality of the advocacy and the ethics of your organisation in terms of governance, participation, transparency, expertise and promotion of the general interest, as well as your true good mood and sense of celebration.

JULES LOCKETT  
LONDON AMBULANCE SERVICE, PRACTICE LEARNING MANAGER, UK

Firstly, I wanted to say what an amazing amount of people that you managed to attract from far and wide – congratulations on that achievement! Secondly, thank you for the incredible work that you deliver on, the professionalism of the team and the quality of the presentations. It has been an absolute pleasure to talk about the great work of control room staff, often unsung. There has been so much we have all learnt, my speciality in training and support to colleagues took a different turn when listening to some new sessions about Training and Quality Improvement – so for that, thank you.

We learn something new every day, over EENA2019, we all learnt so much more than that!

TADAS MAROSCIKAS  
EMERGENCY RESPONSE CENTRE, DEPUTY DIRECTOR, LITHUANIA

The EENA Conference is a great platform to meet counterparts, businesses, brave citizens, and gain new energy for bringing public safety up to a higher level!

88% WERE SATISFIED WITH EENA CONFERENCE 2021
Benefits

CONNECT WITH HUNDREDS OF PUBLIC SAFETY PROFESSIONALS

- Solution-providers, Emergency Services, Authorities, Researchers, Tech Companies...
- From Europe and beyond

LEARN ABOUT THE BEST PRACTICES AND NEWEST TECHNOLOGICAL SOLUTIONS

- Over 100 leading experts and practitioners will address high-level policy and regulatory matters as well as operational and technical issues
- Every participant will have the opportunity to visit an exhibition area where over 35 suppliers will showcase their latest technologies and solutions available

NETWORK AND GROW

- Engage and share expertise with peers from the public safety sector coming from all Europe
- Reinforce your relationship with existing partners and friends
- Make new friends in an informal atmosphere during the social activities

# Programme overview

## Wednesday, 27 April

**Introduction & Opening ceremony**
- The rescue of Christian Eriksen during UEFA Euro 2020
- Emergency response to the 2020 Beirut Explosion
- You're It: Leading through Crisis
- Lessons learned from the 2021 floods in Belgium
- Public perception of crisis communications

## Thursday, 28 April

**Emergency control rooms design**
- eCall - Today and Tomorrow
- Ensuring continuity of emergency communications
- Quality assurance
- Mission critical control rooms
- Industry session: NG112 components
- Industry session / Public Warning solutions
- Industry session / Public Warning solutions

## Friday, 29 April

**Visit the exhibition**
- Vertical & indoor location
- Emergency communications handling around the World
- The French Strategy to Protect Natural Areas Against Wildfires
- Driving change: NexSIS and the reform of emergency call handled by French Fire and Rescue Services
- How can we ensure that we protect the public in ways that also fully respect fundamental rights?
- Video communication to PSAPs - a human perspective
- Access to emergency services is being severely impacted by the lack of VoLTE interoperability

### LUNCH

- Industry session: Focus on solutions on the market
- Industry session: Focus on solutions on the market
- Industry session: Focus on solutions on the market
- Industry session: Focus on solutions on the market
- Industry session: Focus on solutions on the market

**Important note**

This is a provisional programme and it’s subject to change.

</tbody>
</table>
Day 1 - Wed 27 April (morning)

this session, Eric will share practical insights for leading through turbulent times.

*Chaired by Emily Hough, Editor in Chief, Crisis Response Journal & EENA Board Member*

**Eric McNulty**, Associate Director, National Preparedness Leadership Initiative, Harvard University, United States

11.35 - 12.05

**Lessons learnt from the 2021 Floods in Belgium**

In the summer 2021, Belgium and several countries in Europe suffered dramatic floods. Join us to hear about Catherine Delcourt’s experience in managing the crisis in the Province of Liège (Belgium).

*Chaired by Emily Hough, Editor in Chief, Crisis Response Journal & EENA Board Member*

**Catherine Delcourt**, Deputy Governor of the Province of Liège, Belgium

12.05 - 12.30

**Public perception of crisis communications**

As a neuroscientist, Albert Moukheiber has been studying how our brains react to different types of messages. Why are we so susceptible to fake news? Why don’t we all prepare ourselves to face a disaster even when science and authoritative communication tell us to do so? Why don’t we all react the same way with regards to COVID-19 restrictions? Himself a former volunteer at the Lebanese Red Cross, Albert will be sharing his learnings with us.

*Chaired by Emily Hough, Editor in Chief, Crisis Response Journal & EENA Board Member*

**Albert Moukheiber**, Co-Founder, Chiasma

12.30 - 14.00

*Lunch Break and Visit of the Exhibition*

</thead>
<tbody>
<tr>
<td>14.00 - 15.00</td>
<td><strong>Next-Generation 112 Deployments</strong>&lt;br&gt; The rollout of Next-Generation 112 continues apace in Europe and North America with implementation projects already completed or well advanced. In this session, an update on progress will be provided by representatives of three countries at the cutting edge of next generation implementation. They will share their experiences, challenges faced and benefits realised.&lt;br&gt;Chaired by <strong>Michael Pröstler</strong>, Vice-Chair, Tech &amp; Ops Committee, EENA&lt;br&gt;<strong>NG911 implementation in California</strong> - <strong>Budge Currier</strong>, 9-1-1 Emergency Communications Branch Manager, Governor’s Office of Emergency Services, State of California, United States &amp; incoming President of the National Association of State 911 Administrators (NASNA), United States&lt;br&gt;<strong>NG112 implementation in Romania</strong> - <strong>Sorin Vasilca</strong>, Deputy Director, Special Telecommunications Service (STS), Romania&lt;br&gt;<strong>Emergency Apps in an NG112 environment</strong> - <strong>Jürgen Schwanzer</strong>, Directorate-General for Public Safety, Ministry of the Interior, Austria &amp; <strong>Gabriel Unterholzer</strong>, Software Engineer, DEC 112, Austria</td>
<td><strong>Mapping Automated External Defibrillators</strong>&lt;br&gt;It has been demonstrated multiple times that an early defibrillation significantly improves the chances of survival of an out-of-hospital cardiac arrest. In this session, you’ll hear how public authorities have developed digital registries to help locate the nearest defibrillators as quickly as possible.&lt;br&gt;Chaired by <strong>Stephen Hines</strong>, Clinical Tutor, London Ambulance Service NHS Trust, United Kingdom&lt;br&gt;<strong>Findings of the ‘Galileo for AEDs project’</strong> - <strong>Benoit Vivier</strong>, Public Affairs Manager, EENA&lt;br&gt;<strong>Strengthening the first links in the chain of survival</strong> - <strong>AED mapping and dispatch of AEDs and volunteers in Sweden and Denmark</strong> - <strong>David Fredman</strong>, RN, PhD, Heart of Operations, Heartrunner Sweden AB&lt;br&gt;<strong>Where to plug - AED mapping in Austria</strong> - <strong>Stefan Spielbichler</strong>, Chief communications officer, Emergency Communication &amp; Coordination Centre of Lower Austria, Austria</td>
<td><strong>Industry session</strong>&lt;br&gt;Focus on solutions available on the market&lt;br&gt;Chaired by <strong>Volker Tondorf</strong>, Leader of Digital Deployment Investigation, Federal Agency for Technical Relief / VOST, Germany&lt;br&gt;<strong>Integrated Communication Platform Strengthening Collaboration with Society</strong> - <strong>Małgorzata Pawłowicz</strong>, Regional Government Industry Expert, Huawei&lt;br&gt;<strong>Broadband – evolution or revolution of field operations</strong> - <strong>Tero Pesonen</strong>, Vice-Chair, The Critical Communications Association (TCCA)&lt;br&gt;<strong>GNSS location in confined environment (tunnels, metro, parkings, …) to better address emergency calls location</strong> - <strong>François Goudenove</strong>, Sales Officer, Syntony-GNSS</td>
</tr>
</tbody>
</table>
Day 1 - Wed 27 April (afternoon)

15.05 - 16.05

**Public Warning - Moving beyond the technology mandate**
Modern Public Warning Systems should be deployed in all the Member States of the European Union by June 2022. However, while the European legislation only prescribes the implementation of one technology, recent developments make it possible to go beyond what is required in the EU legislation and better alert the citizens.

Introduced and chaired by Johnny Douvinet, PhD, Professor, Avignon University, France

Public Warning Systems in Europe: Taking the bull by its horns - Mathieu Lafforgue, Product Marketing Manager, Intersec

The evolution of public safety towards greater societal resilience. How we can extend the value of public warning technology by building an ecosystem of government, citizens, and corporations; to move from a traditionally ‘reactive’ response to a more ‘proactive’ (and faster) response to large scale disasters. - Val Risk, Vice-President Public Safety & Dominic Jones, Senior Vice-President Partner Development, Everbridge

Galileo - A global, resilient and complementary infrastructure for Public Warning - Laurent Arzel, Navigation Project Leader, Telespazio France

**Using data to anticipate, predict and respond to emergencies**
From connected objects to artificial intelligence, data has become increasingly present in today’s economy and societies. In this session, speakers will present how emergency services could make use of these data to better organise their work.

Chaired by Alfonso Zamarro, Vice-Chair, Tech & Ops Committee, EENA

Artificial Intelligence – is it real? - If AI is such a game changer, why aren’t we working on it together to give Public Safety officers the ‘information initiative’? - Jan Thompson, Senior Director EMEA: Defence, Justice and Public Safety, Oracle

Increasing resilience and resistance of Smart Cities by forecasting the number of incoming emergency calls based on Internet of Things open data - Ana Robnik, Project Coordinator & Valerij Grašič, Solution Manager, Iskratel, on behalf of 5GSafety Project

**Galileo**
- **A global, resilient and complementary infrastructure for Public Warning**
  - **Laurent Arzel**, Navigation Project Leader, Telespazio France

**Industry session**
Focus on solutions available on the market.

Chaired by Jessica Reed, Vice-President of Strategy & Global Partners, RapidSOS

Creating Time to Care - Martin Clark, Director Sales EMEA region, CSAM Public Safety software solutions

Maximizing your Command and Control Investment - Holly Blanks, Director of Global Business Development, Pulsiam & Henry Unger, President, Pulsiam

16.05 - 18.00

**Networking in the exhibition area**
While the 112 Awards Ceremony is getting prepared in the Plenary room, delegates will have the opportunity to visit the stands and to enjoy a networking cocktail that will be served in the exhibition area.

16.20 - 17.20

**Research Corner**
*In partnership with ISCRAM*
Academic researchers will present their latest work in the area of public safety. Join us to find out the present and future of research in the emergency...
Day 1 - Wed 27 April (afternoon)

Also, EENA’s “Topics-based speed-dating” is back! This speed-dating event will be organised for participants willing to meet with experts to discuss the following topics:

- AML,
- Public Warning,
- PSAP Directory (supporting inter-PSAP communication across national borders),
- NG112 Deployments,
- Accessibility,
- Staff well-being,
- PEMEA (Pan-European Mobile Emergency Application),
- Critical communications.

Participants will receive an invitation to register to these meetings two weeks before the event.

And, as in 2021 in Riga, EENA continues its partnership with ISCRAM to present some of the latest research papers in the public safety field (see “Research Corner” session on the right hand side).

An artificial intelligence tool to classify emergency medical incidents in real time improves emergency medical dispatch - Pablo Ferri Borredà, Biomedical Data Science Laboratory, Institute of Information and Communication Technologies, Polytechnic University of Valencia, Spain

Predicting Volunteer Travel Time to Emergencies - David Fredman, RN, PhD, Heart of Operations, Heartrunner Sweden AB

Evaluating the Public’s Reaction to Simulated Alerts on Mobile Phones in France: Scale Effects, and Challenges - Johnny Douvinet, PhD, Professor, Avignon University, France

Augmented reality points of interest for improved first responder situational awareness - Rozenn Marechal, Project Manager, CS Group

Real-time Alert Framework for Fire Incidents Using Multimodal Event Detection on Social Media Streams - Thomas Papadimos, Research Associate & Data Scientist, Centre for Research & Technology Hellas (CERTH), Greece

Networking in the exhibition area

18.00 - 19.15 112 Awards Ceremony - Track 1 room

Every year, special achievements result in a better protection of the citizens. The 112 Awards Ceremony will recognise and reward some emergency services and citizens for their outstanding contribution to public safety.
## EENA CONFERENCE 2022 - PROGRAMME

### Day 2 - Thu 28 April (morning)

<td><strong>Ensuring continuity of emergency communications</strong>&lt;br&gt;With recent outages of emergency numbers and growing concerns related to cyberattacks, ensuring continuity of service of emergency numbers is on the top of many public authorities’ agenda. This&lt;br&gt;<strong>Strengthening the engagement of civil society in transforming disaster management</strong>&lt;br&gt;Our society is increasingly exposed to complex risks, emerging threats and multidimensional</td>
<td><strong>Industry session / Public Warning solutions</strong>&lt;br&gt;Providers of Public Warning solutions will demonstrate their products.&lt;br&gt;<em>Chaired by Laurent Arzel, Navigation Project</em></td>
<td></td>
</tr>
</tbody>
</table>
EENA CONFERENCE 2022 - PROGRAMME

Day 2 - Thu 28 April (morning)

session will present several solutions to better protect access to emergency services.

Chaired by Markus Bornheim, International Practice Lead Public Safety & Emergency Services, Avaya

Continuity of Operations Planning for Emergency Communications - April Heinze, National Emergency Number Association (NENA), United States

Ensuring continuity of emergency communications from a technical and operational point of view - Bogdan Belciu, Technical Specialist & Alexandru Vadana, Operational Specialist, Special Telecommunications Service, Romania

How “Call Handling as a Service” (CHaaS) can ensure continuity of Emergency Communication? - Jörg Rieder, Global Head Product Management and R&D for Public Safety Solutions, Atos Unify

hazards. Therefore, it is essential to enable communities to increase their resilience and empower them to build back smarter. This session brings together a cluster of European projects working towards a common objective: stronger, safer communities and increased resilience of all.

Chaired by David Wales, Customer Experience Expert

From understanding to supporting how official emergency actors interact with the population during crises - Matthieu Branlat, Senior Scientist, SINTEF on behalf of the ENGAGE project

The role of emergency services in local resilience assessments - Uberto Delprato, Chief Executive Officer, IES Solutions & Jon Hall, Founder, The Resilience Advisors Network on behalf of the Resilloc project

Understanding social media and crowdsourcing technologies in disasters - Richard Lüke, Project Officer, Safety Innovation Center e.V. on behalf of the LINKS project

New tools for identifying vulnerable citizens and planning evacuation - Ago Tominga, University of Tartu, Estonia and member of the Estonian Rescue Board on behalf of the BuildERS project

Leader, Telespazio France

F24: An approach for an Efficient Public Alerting - Amélie Grangeat, Product Manager - Public Warning Systems, F24

Genasys Integrated Public Warning and Evacuation management solutions - Pablo Gómez, Mass Notification Systems Strategic Marketing Director, Genasys

PWS for national and local public authorities - Mathieu Lafforque, Senior Product marketing manager; Charlotte Thomas, Cloud offering director, Intersec & Romain Moutard, Lieut, Col., FR-Alert Program Director, Ministry of Interior, France

11.05 - 11.30

Coffee Break and Visit of the Exhibition
Day 2 - Thu 28 April (morning)

11.30 - 12.30  Quality Assurance
How to make sure your PSAP provides services of high quality to people that need it most? In this session, you will learn how some PSAPs have set specific requirements, processes and procedures allowing them to measure and improve their performance.

Chair ed by Fabrice Dami, Medical Director, Lausanne emergency dispatch, Switzerland

Ensuring the quality of operating the 112 Emergency Service - Georgiana Cristina Sabareanu, 112 Training Coordinator & Cristina Bianca Gherghe, 112 Supervisor, Special Telecommunications Service, Romania

Involving all staff in the quality process - Maarja-Liisa Kapaun, Quality Assessor, Estonian Emergency Response Centre, Estonia

Ensuring quality while keeping up with quantity - Jennifer White, President, National Emergency Number Association (NENA), United States

Mission Critical Control Rooms
Regular EENA conference attendees are used to hearing about PSAPs. This session will be an opportunity for you to learn more about critical control rooms who, beyond serving as a PSAP per se, are also monitoring and protecting critical infrastructures such as airports, harbours and energy production facilities.

Chaired by Mladen Vratonjic, Vice-Chair, EENA & Board Chair and Director, The Critical Communications Association (TCCA)

Communication Concepts for Critical Infrastructures - Markus Bornheim, International Practice Lead Public Safety & Emergency Services, Avaya

Applying PSAP logics to private control rooms - Carlo Paradiso, International Business Development, Beta 80 Group

Airport control rooms as early adopters of mission-critical mobile broadband communication - Wolfgang Kampichler, Principal Scientist, Frequentis AG

12.30 - 14.00  Lunch Break and Visit of the Exhibition

Industry session / Public Warning solutions
Providers of Public Warning solutions will demonstrate their products.

Chair ed by Andrew Watson, Global Government Industry Expert, Huawei

Utimaco & Celltick – Public Warning Systems - Ronen Daniel, CEO, Celltick Technologies

Wireless and Digital Broadcast Emergency Implementation - Thierry Darras, Sales Director APAC, Opencode

Geo-Targeted Alerts for Emergency Communication - Mitesh Vageriya, Chief Executive Officer, Pert Telecom Solutions (PertSol)
### Day 2 - Thu 28 April (afternoon)

#### Track 1 room

**Standardisation**
In this session, we will hear how standardisation organisations work, as well as how standards can help the emergency services community.

*Chaired by Wolfgang Kampichler, Co-Chair, Tech & Ops Committee, EENA*

- **Emergency communications and ETSI - Luis Jorge Romero**, Director General, European Telecommunications Standards Institute (ETSI)
- **3GPP standardization for Emergency Services and Public Safety - Jukka Vialen**, SA6 Vice-Chair, 3rd Generation Partnership Project (3GPP)
- **European Union support to standardisation - Emilio Dávila**, European Commission

#### Track 2 room

**Budget & tenders**
Public safety is priceless, but it comes at a cost. In this session, we'll explore how public safety organisations can best deal with financial changes, tenders and administrative processes.

*Chaired by Tomás Gíslason, Deputy CEO, 112 Iceland*

- **What's the value of the "call for life"? - Gregor Jähn**, 112 in the Balkans - DispoNet
- **Expectations and reality in technical requirements - Luca Bergonzi**, Sales Executive, International Business Development, Beta 80 group
- **Public Safety as a Service - Andrew Watson**, Global Government Industry Expert, Huawei

#### Track 3 room

**Industry session**
Focus on solutions available on the market.

*Chaired by Iratxe Gomez, Vice-Chair, Tech & Ops Committee, EENA*

- **Preventing violence against emergency services**
  While emergency services dedicate their lives to keeping other people safe, we must think about protecting the protectors. Sadly, whether in the call centre or out on the field, violence towards emergency services continues to be a prevalent issue. What steps are being taken to reduce this?

*Chaired by Amélie Grangeat, Product Manager - Public Warning Systems, F24*

- **Industry session**
  Focus on solutions available on the market

*Chaired by Jan Thompson, Senior Director EMEA: Defence, Justice and Public Safety, Oracle*

- **PEMEA, Supporting Enterprise Emergency Calling - James Winterbottom**, Chief Architect and Product Manager - Emergency Solutions, Devergyware
- **Mobile APPs for Public Safety - Sebastian Stepfer**
**EENA CONFERENCE 2022 - PROGRAMME**

**Day 2 - Thu 28 April (afternoon)**

- **Telephony Denial Of Service For Emergency Communication** - It's Real, It's Happening, It's Serious - **John Snapp**, Vice-President of Technology, Intrado Life and Safety Inc.

- **Cyber Resilience for the Digital Decade through the eyes of Critical Infrastructure, 5G Operators and Essential Services** - **Jeremy Capell**, Chief Information Security Officer, Everbridge

- **Is the scene safe? Rethinking scene safety, lessons from NO FEAR project** - **Chaim Rafałowski**, Disaster Management Coordinator, Magen David Adom (Emergency Medical Services of Israel)

- **Firebru vs. Aggression** - Measures to prevent violence against Brussels firefighters - **Spencer Smolders**, Officer, Fire Department of Brussels, Belgium

- **Verbal violence against 112 call-takers manifested after tragic events or emergencies and post factum psychological interventions to reduce the emotional impact** - **Iulia Mihaela Filip**, Psychologist & **Andrea Miana Veres**, Psychologist, Special Telecommunications Service, Romania

- **Protecting First Responders with Smart Video** - **Ivan Ruiz**, Expert, The Critical Communications Association (TCCA)

**16.05 - 16.30**  
**Coffee Break and Visit of the Exhibition**

**16.30 - 17.30**  
**Mental health of call-takers**  
When they do their work, emergency call-takers can sometimes handle very difficult situations. Hence, providing mental support to PSAPs staff is of paramount importance and presenters in this session will discuss the best ways to do it.

Chaired by **Spencer Smolders**, Officer, Fire Department of Brussels, Belgium

**Considerations related to the war in Ukraine**  
This session was added to the conference programme in the very last weeks to help EENA 2022 attendees hear from experts who have been working on matters related to the war in Ukraine. Among others, you will hear about building resilience, tackling disinformation and supporting refugees.

Chaired by **Demetrios Pyrros**, President, EENA

**Industry session**  
Focus on solutions available on the market

Chaired by **Gregor Jänin**, 112 in the Balkans - DispoNet

How does 5G reaffirm the essential role of mobile carriers in emergency caller location? - **Mathieu Lafforgue**, Senior Product marketing manager, and **Christophe Nez**, Vice-President Product, Intersec

**SMS to video - Insights and real use cases from Scandinavia. Pros and cons of live video streaming in 112 calls**  
- **Thomas Baun**, CEO & **Asger Plæhn**, CMO, Incendium

**Partner & Managing Director, IPS Consultants**

**DispoNet**

How does 5G reaffirm the essential role of mobile carriers in emergency caller location?
EENA CONFERENCE 2022 - PROGRAMME

Day 2 - Thu 28 April (afternoon)

health of the 112 call-takers - Iulia Mihaela Filip, Psychologist & Andrea Miana Veres, Psychologist, Special Telecommunications Service, Romania

A structural way to maintain and assess “stridsvärde” in mentally challenging work - Niclas Wisén, Founder, Licensed Clinical Psychologist, Pwelt, Sweden

Taking Care of Our Own: how? - Jennifer White, President, National Emergency Number Association (NENA), United States

Strengths and vulnerabilities of community resilience in Ukraine - Dmitri Teperik, RESILIENT UKRAINE Programme Director & Chief Executive, International Centre for Defence and Security (ICDS)

Report on the humanitarian operation “Pompiers de la Paix” (Peace Firefighters) - Christian Poirel, Chief Physician & Laura Dutto, Fire and Rescue Service of Bouches-du-Rhône (SDIS13), France

Decision Making in Crisis Situation – Negative influence of cognitive biases and how to overcome - Markus Epner, Head of Academy, F24

Dispatchable address including floor and room number for mobile 112 - Pablo Asiron, Vice-President Europe & Public Networks, Eli Technology

Android Air Raid Alerts in Ukraine - Micah Berman, Product Manager, Android Safety, Google

19.00 - 22.30 EENA 2022 Social event, co-powered by EENA & Everbridge

Join us and colleagues from all over the world in Fort Ganteaume for a memorable evening co-powered by EENA and Everbridge. This is a not to be missed opportunity where you can also enjoy a walking dinner with one the most stunning views of the Old Port, and have a fun interactive quiz with your peers.

Entrance fee: 50 EUR (VAT included) - including: a welcome drink, a walking dinner with 2 drinks and a fun quiz in teams.

Register here: https://www.weezevent.com/eena-2022-social-event
The event is limited to a maximum of 250 guests. No participant will be accepted without prior registration and payment.

For more info on this casual event, please visit: https://eenaconference.org/social-activities/
Day 3 - Fri 29 April (morning)

09.00 - 10.00

**Vertical & indoor location**
Thanks to Advanced Mobile Location (AML), emergency services can now quickly obtain the accurate location of a caller. However, locating someone inside a building or determining the vertical position of the caller can still be problematic. In this session, the speakers will present different technologies to obtain vertical and indoor location.

Introduced and chaired by **Kevin Graham**, Chief Executive Officer, The Critical Communications Association (TCCA)

Overcoming the 3D positioning challenges in large/dense urban areas and cities - **Stuart Walsh**, Field Product Director, Creativity Software

Android ELS and Vertical Location: Challenges and Tips - **Micah Berman**, Product Manager & **Alastair Breeze**, ELS Tech Lead, Google

3 Dimensional Mapping for Indoor Location and Routing - **Francisco Nobre**, Public Safety Business Development Executive, ESRI

---

10.00 - 10.40

**Emergency communications handling around the World**
Each country has its own structure, challenges and innovations when it comes to handling emergency communications. In this session, we’ll share knowledge and experiences from across the world.

Chaired by **Kaili Tamm**, Board Member, EENA

Sharing experiences from over 7 decades with a single emergency number and nearly 50 years with a dedicated PSAP organisation - **Björn Skoglund**, Operations Specialist on 112 and Crisis Management, SOS Alarm, Sweden

The modernization of Malaysia Emergency Response System (MERS 999) - **Mohd Nor Azhar Sulaiman**, Head of Solution Consultant Public Safety & Emergency Services, Telekom Malaysia

---

10.00 - 10.40

**Coffee Break and Visit of the Exhibition**
EENA CONFERENCE 2022 - PROGRAMME

Day 3 - Fri 29 April (morning)

10.40 - 11.05  The French Strategy to Protect Natural Areas Against Wildfires
Every summer, emergency services are confronted to an increasingly high risk of forest fires. During this session, the speaker will discuss how the fire and rescue services in the south of France are facing this risk and what measures have been put in place to prevent the start and the spread of forest fires.

Chaired by Dieter Nüssler, Vice-President, EENA

Colonel Pierre Bépoix, Deputy Chief of Department, Fire and Rescue Service of Bouches-du-Rhône, France

11.05 - 11.30  Driving change: NexSIS and the reform of emergency calls handled by French Fire and Rescue Services
Besides the disruptive technological changes currently conducted by French authorities, what have been the challenges faced to drive such a project? Many aspects from the change of philosophy of the call-taking process to project management matters will be covered.

Chaired by Dieter Nüssler, Vice-President, EENA

Michel Monneret, Director, Digital Agency for Civil Protection (ANSC), France

11.30 - 11.55  How can we ensure that we protect the public in ways that also fully respect fundamental rights?
More and more data is available for public safety. Where do we draw the line? Which data should public safety use and how should it be used? How can we find a middle ground between protecting the public and ensuring that fundamental rights are fully respected? Join us to hear the subject expertise from EDRI’s Ella Jakubowska.

Chaired by Greg Rohde, President, eCopernicus

Ella Jakubowska, Policy Advisor, European Digital Rights (EDRI)

11.55 - 12.20  Video communication to PSAPs - a human perspective
With new information and communication technologies, there is a growing demand to make it possible for citizens to contact emergency services by video. But allowing video communication with PSAPs comes with many challenges, both for the caller and the call-taker. In this presentation, the speakers will focus on the human experience in the video communication with PSAPs.

Chaired by Greg Rohde, President, eCopernicus

David Wales, Customer Experience Expert & Filip Malenak, Managing Director, Zachranka
Access to emergency services is being severely impacted by the lack of VoLTE interoperability

Some weeks ago, French mobile operator Free warned that calling numbers, including emergency numbers, would not function when roaming in the US. Experts like Rudolf van der Berg had previously warned that this was an emerging issue with very serious consequences for emergency communications. Stay with us to hear from Rudolf about what needs to be done to make sure access to emergency services can continue functioning.

Chaired by Greg Rohde, President, eCopernicus

Rudolf van der Berg, Senior Consultant, Stratix

Conference closing

By Demetrios Pyrros, EENA

Lunch Break and Visit of the Exhibition
